CAREER OBJECTIVE

To secure an Associate Software Engineer position where I can apply my programming skills, knowledge of data structures and algorithms, and problem-solving abilities to develop efficient and scalable software solutions. I aim to contribute to team-driven projects, continuously learn emerging technologies, and deliver high-quality software that creates meaningful business and customer impact.

EDUCATION

Hindusthan College of Engineering and Technology, BE CSE, Coimbatore Nov 2021 - May 2025

- **CGPA:** 9.3

Paramveer Matric Higher Secondary School, HSC, Dharmapuri Jun 2020 - Apr 2021

- **Percentage:** 93%

Paramveer Matric Higher Secondary School, SSLC, Dharmapuri Jun 2018 - Apr-2019

- **Percentage:** 94%

TECHNICAL SKILLS

Programming Language	: Java.
Web Development	: HTML, CSS, JavaScript.
Tools / Platforms	: VS Code.
Database Management	: SQL.
Testing	: Manual Testing.

PROFESSIONAL EXPERIENCE

Web Development Intern | *Skill Intern (Remote)* — *Sept 2024*

- Collaborated on web development projects, focusing on front-end technologies. Gained hands-on experience by contributing to key aspects of web application development.
- Engaged in learning sessions and applying knowledge through practical implementations.

Web Developer Intern | *Innobyte Services (Remote)* — *Aug 2024*

- Successfully completed a web development internship, gaining practical experience in building web applications. Developed the front-end of a Guest House Booking System using HTML, CSS, and JavaScript, ensuring a responsive and intuitive user interface.
- Enhanced the booking system's functionality by optimizing code and implementing user-centric features.

PROJECTS

Guest House Booking : Implemented a Guest House Booking System to effectively handle room reservations. The system allows users to book rooms, check for room availability, and cancel reservations without compromising data integrity and ensuring reliable operation.

Sign Language Detection System: Designed and implemented a real-time Sign Language Detection system capable of recognizing and classifying hand gestures from live video input to interpret sign language accurately through gesture recognition.
